# Commercial Label Printer R-Series

## Features

- For commercial and light industry applications
- 300dpi high and 203dpi low resolution models available
- 32-bit CPU, 6ips print speed, and no ribbon wrinkle with centralized thermal print head for superior print performance
- Ultra-precise printing module for print jobs such as thick tags, fabric labels, and tough label printing
- Adjustable reflective sensor
- Industrial-strength media management: Max 360M ribbon wax & 6" media compartment
- Easy media loading & ribbon installation
- Reinforced fiber-plastic metal-strength construction and printing module, and optimum footprint and lightweight for easy placement
- PPLA, PPLB, PPLZ emulations available
- Full range of options :Cutter, peeler, stacker, memory card, font card, RTC and standalone keyboard (Argokee)
- Printer Server external for Ethernet/Wireless options

## Product Values

R-400plus

### R-400plus

R-400plus leads industrial level printers in affordability and ease of handling. Easy-to-use design allows convenient loading of 360M ribbon and 6" OD media roll in under a minute. Throughput up to 6ips is enhanced by a fast 32-bit RISC microprocessor, as well as 1MB flash memory for larger data storage. Movable reflective sensor makes it easy to detect variable media with 25.4mm ~ 118mm width. Leading edge design brings more performance and functionality to make R-400plus the ideal choice as an industrial printer for easy operation at the lowest cost.

R-600S

### R-600S

The R-600S inherits the Refine Series' mechanism. Loading capacity accommodates a maximum 360M ribbon roll and 6" OD media supply. Adjustable media guide with centralized alignment fits all variable media from 25.4mm to 118mm. Easy access via a three-button control panel saves time and requires minimal training allowing the benefits of easy and fast handling. Built-in universal switch power offers 100% flexibility to fit in any local application environment, and it is lightweight, space-saving, and easy to handle. The R-600S maintains high quality printing with 300dpi resolution making it the value-added printer of choice for textile and care labeling applications.
